HEALTH INSURANCE

Eligibility: Active full-time employees who work 30+ hours per week. Benefits begin on the 1st of the month following 30-days of full-time employment.

Our company is self-insured for our health plan, meaning that we pay the cost of every medical claim for every person our plan covers. We take on that financial risk so we can keep costs lower for everyone. To better understand the impact of these claims, Bone & Joint spends approximately \$.12 for every \$1 earned on healthcare plan costs. Next to employee wages, healthcare is the single highest expense paid by Bone & Joint. The challenges facing Bone & Joint each plan year is to manage healthcare costs, so they do not consume a significantly larger piece of the budget. For instance, if claims increase by \$120,000 Bone & Joint would need to increase reimbursements by \$1,000,000 to maintain 12% of total budget.

It is important to keep in mind that while Bone & Joint continues to grow its business, certain expenses such as healthcare claims costs, may continue to outrun growth. It is important to keep wellness, improved efficiencies, and cost containment in everything we do, top of mind.

HEALTH SAVINGS ACCOUNT (HSA)

Bone & Joint and Alerus have partnered to offer you an HSA Account for High Deductible Health Plan (HDHP) participants. The account funds automatically from your payroll on a pre-tax basis, gives you easy access with a debit card and online banking, plus earns interest and/or you can invest your funds based on your balance.

To qualify for an HSA, you must be enrolled in one of the HDHP plans and CANNOT:

- be covered by another health insurance that is not a qualified HDHP
- be enrolled in Medicare
- be claimed as a dependent on someone else's tax return.
- be active Military

The IRS defines a dependent for HSA as a child who is not yet 19 (or, if a student, not yet 24) at the end of the tax year or is permanently or totally disabled.

Your HSA can help you pay for you, your spouse's and/or your dependent's qualified medical expenses including health insurance deductibles and out of pocket expenses, prescription drugs, over the counter medications, co-payments, dental and vision expenses. The 2024 contribution limits (as set by the IRS) for employer + employee combined is **Individual: \$4,150; Family/Limited Family: \$8,300**. Individuals who are age 55 or older may make an additional \$1,000 "catch-up" contribution any time during the year in which the HSA participant turns 55.

The advantage of an HSA is that the funds left in your account at the end of each calendar year carry over into the next year. Also, your contributions are made on a pre-tax basis and Bone & Joint contributes money into your account. ***See the previous Bone & Joint Medical Plan table for contribution amounts.***
